Castrol Vecton Long Drain 10W-40 E8/E11

For longer useful oil life

Description

Castrol Vecton Long Drain 10W-40 E8/E11 is an advanced synthetic technology heavy duty diesel engine oil that is specifically engineered to deliver longer useful oil life.

Application

Castrol Vecton Long Drain 10W-40 E8/E11 is suitable for highly rated diesel engines meeting Euro I to Euro VI emission requirements. It is suitable for engines with or without particulate filters, and for most EGR engines and for most engines fitted with SCR NOx reduction systems. It is strongly recommended for engines fitted with particulate filters and is designed for use in combination with low sulphur diesel fuel.

Advantages

Modern trucks use new technologies to make as much as 30% higher torque, but this also means higher engine temperatures and pressures. This punishes the oil, pushing it closer to breakdown, and reducing its useful life and ability to extend drains. Castrol VECTON Long Drain's System Pro Technology™ has been proven to safely extend drain intervals up to 120,000kms*.

System Pro Technology fights oil breakdown by:

- combating oxidation and deposits
- neutralizing harmful acids
- controlling oil aeration
- adapting to increased temperatures
- resisting viscosity loss through shear.

All of this means longer useful oil life, giving you the confidence in your maximum drain interval.

*is approved by MAN for up to 120,000kms and Mercedes Benz, Volvo, and Renault for up to 100,000kms in accordance with their specifications. Actual oil drain depends on engine type, operating conditions, service history, OBD and fuel quality. Always consult your manufacturer's handbook.
