

PRODUCT DATA SHEET

Kerosene

Sales Specification (Rev – March 2012)

Description

Kerosene is a water-white or clear blue liquid, which is primarily used as a fuel for lighting and heating. It does however, have uses as a solvent where a low cost, wide-cut, slow evaporating aliphatic solvent is required. Degreasing and Cleaning Solvent.

Properties	Test Methods	Specification
Odour		Mild
Appearance	Visual	Clear
Color (Pt-Co)	ASTM D1209	Max 30
Specific Gravity @15 °C g/ml	ASTM D4052	0.775 – 0.840
Boiling Point Range°C		140 - 300
Flash Point°C	IP 170	38 min
Solubility in Water	%w/w	Insoluble
