ILS FLEETWASH

A Biodegradable Detergent Based Cleaner

Description

ILS FLEETWASH is an economical biodegradable detergent based cleaner, free of caustic soda or solvents, specifically designed for use on vehicle fleets where the harsher alkaline style products are not so desirable.

Applications

For use in spray or brush applications on truck vehicle fleets, cars, buses, vans, motorcycles, buildings among others

Suggested Application Rates	Dilution Ratio
Pressure washing applications	1:40 (2.5%)
Water blasting and degreasing	1:20 (5%)
Brushing & light duty cleaning	1:100 (1%)

Benefits

- Concentrated product – Cost effective
- Biodegradable
- Suitable for vehicle fleets or mobile plant
- Low odour
- MPI approved C 37 (All product except dairy)
- Available in 20L & 200L containers

Method of Use

Select the appropriate dilution - Apply cleaning solution directly to surfaces by spraying brushing or soaking. Allow time for detergent to penetrate (10-15 min). Rinse off with high pressure clean water.

Typical Characteristics

Parameter	Test Method	Typical Properties
Appearance	Visual	Burgundy red
pH neat product	Various	11.8
Density @ 20 °C	ASTM D 1298	1.025 g/ml
