Technical Data sheet

OILSAFE – DRUM RING

Color-coded Drum Rings fit securely and easily to all OilSafe Drums and provide clear and effective identification. This ring enables quick and easy removal of the entire labeling assembly from the drum when the drum requires cleaning. Adhesive labels are also available to enable more detailed identification. Options include: the "Contents" Label with space for writing information or create a Custom Label using the Label Wizard.

- Features and benefits: Industrial grade with UV stabilizers and anti-static additives
- Recessed panel for secure label placement
- Includes a hook for additional labeling options with leashes and pockets
- Available in 10 OilSafe's standard colors

Weight: .04 lbs
