Technical Data sheet

OILSAFE – Grease Fitting Protector Kit - 1/4"

Grease Fitting Protectors save you the cost of equipment failures related to contamination or misapplication. These protectors provide a secure seal over most common grease fittings providing excellent protection against contamination. Furthermore, with 10 colors and space for labels the grease fitting protectors clearly identify what grease is required for the fitting.

These protectors provide a number of benefits over traditional grease fitting protectors, including:

- Available in OilSafe's 10 standard colors
- Recessed head for label placement
- Create custom labels for Grease Fitting Protector with the Label Safe Wizard
- Firm seal around fittings
- Innovative hook design means easy grip and removal of cover
- Durable industrial grade materials
- Available in various sizes -Pack of 100

Weight: .23 lbs
